

# Norma Ruy Sanchez

## Technical Support Leader and People Manager

✉ normars@gmail.com ☎ 331 864 5090 📍 Ciudad de México

### Profile

---

Technical Support & Engineering Manager transitioning to AI Product Management. 10+ years leading cross-functional teams (2-20 people) with proven track record in scalable operations, process optimization (25% sprint velocity improvement), and data-driven decision-making. Currently managing 8-person team at Datadog while building AI/ML expertise through certification programs and hands-on projects.

### Work History

---

#### Manager, Technical Support

11/2024 – Present

*Datadog*

Mexico City

- Lead a team of 8 Technical Solutions Engineers.
- Manage onboarding and mentorship program for new hires.
- Evaluate AI-powered support automation tools to improve ticket resolution efficiency.
- Develop training on Datadog's AI observability features for customer AI/ML workloads.
- Analyze patterns in support data using metrics-driven approach to identify improvement opportunities.

#### Technical Project Manager

01/2022 – 11/2024

*3 Pillar Global for The Telegraph & Motortrend Group*

Zapopan

- Led a cross-functional team of 12 engineers formed by Developers, SREs, QA Engineers and Design delivering scalable web solutions and integrations for MotorTrend Group and 10 Developers for The Telegraph in UK, London.
- Drove process optimization using Agile methodologies, Jira, and Confluence, improving sprint velocity by 25% and reducing blockers.
- Create project plans, roadmaps and managed project scope using methodologies to guide projects from conceptualization to implementation and maintenance.

#### Senior Technical Lead → Chief Operating Officer

05/2020 – 01/2022

*Guaostudio*

Guadalajara

- Led a team of 20 people across 6 departments (Operations, DevOps, Development, Marketing, Human Resources & QA).
- Collaborated with CTO to develop and implement recommendations for service improvement.
- Put together DevOps area to improve use of servers and avoid downtime for clients, improved servers service 90% and decrease costs by 50%.
- Identified innovative and automated approaches to routine tasks for different areas.
- Active Chief Operating Officer since August 2020

#### Full Stack Developer

04/2019 – 05/2020

*Sideways*

New York

- Responsible of the Tech Support area and Legacy Projects.
- Reviewed code to validate structures, assess security and verify browser, device and operating system compatibility.
- Debugged problems and corrected issues on a timely manner.
- Implemented new process for Help Desk using Atlassian with proper SLA's and improve client's satisfaction rate by 50%.
- Developed personalized CMS themes with complicated features and functionalities using Wordpress with advanced custom fields (ACFs) and blade template engine.
- Improved existing websites by making sure sites had proper structure, best practices and were ADA/GDPR compliant.
